Dear Sir/Madame,

I am writing to you to apply for the 'The Dock - AI & Data Scientist' position in Accenture's Dublin offices as advertised on the company website. I have uploaded my CV to your application process for consideration.

As you can see on my CV, I have previous experience in data collection, data analysis and artificial intelligence in both professional and academic contexts. So, not only do I have a deep understanding of the challenges and solutions in data science and AI, but I also understand how this knowledge is applied professionally.

If I am chosen for this position, not only will my technical expertise be useful for 'The Dock', but my short and long term career goals will fall in line with Accenture's plans. Accenture will get an asset dedicated to adding value to Accenture and to myself over course of at least five years or longer.

I am confident that I am an ideal candidate for this role. I have the required technical expertise to add value to this role. I also have the enthusiasm to make the most of the opportunity. I would be an excellent choice for Accenture in this case.

yours faithfully,

Thomas J. Delaney
